About Last Labyrinth

An escape-the-room adventure game that can only be experienced in VR, *Last Labyrinth* was created specifically for the VR age. Players must work to escape a mansion full of hidden dangers with a mysterious girl that appears before them.

The full version will receive a multi-platform, worldwide release (download only) in Fall 2019.

Development of *Last Labyrinth* is being spearheaded by Hiromichi Takahashi, director and producer of the acclaimed *Doko Demo Issyo* (PlayStation® 1999) series and co-creator of Toro (the Sony Cat).

Working alongside him is Co-Director Tetsuya Watanabe, previously a game designer on *Puppeteer* and *The Last Guardian* (in-game physics); Lead Animator Atsuko Fukuyama, best known for her work in animating the non-verbal characters that players work alongside with in *ICO* and *Shadow of the Colossus*; Lead Environment Artist Michiko Kusaba, who worked as a Landscape Designer on *Gran Turismo 3:A-Spec* and *Gran Turismo 4*; and Sound Designer Takuya Hanaoka, whose past works include *Monster Rancher* and the *Super Robot Wars* series.

With resumes featuring titles that are household names around the world, the team is now taking on the unique challenge of creating a VR game that revolves around “non-verbal communication” and are committed to bringing Katia and the world of *Last Labyrinth* to life.

Katia is the mysterious girl that players work together with throughout the game. She is voiced by Stefanie Joosten, the voice and likeness of Quiet from *Metal Gear Solid V: The Phantom Pain* (2015) and international model, actress, voice-actress and singer.

The *Last Labyrinth* theme song is composed by renowned video game music composer Hiroki Kikuta, whose works include the music of *Secret of Mana*, *Seiken Densetsu 3*, *Sōkaigi* and other titles. The theme song is also sung by Stefanie Joosten.
